## ART & BULLES EVENING

SEASON 2016-2017 // EDITION OF FEBRUARY 8, 2017

Featured Artist: JusteRobe - Women's Fashion

**Montreal, February 8, 2017** - Welcome to the first edition of the Art & Bulles evenings of the year! For the occasion we present JusteRobe, a Quebec label of ready-to-wear created and produced here!

Indeed, on the occasion of this evening, you will have the chance to talk with the two partners of the brand, Valérie and Stéfanie, who launched JusteRobe last October. In a "chic-casual" atmosphere, guests are invited to discover the different pieces of the Quebec label, which was born from the will of the two women to create the perfect little black dress.

During this evening, visitors will also have the opportunity to enjoy a glass of bubbles, offered gracefully by the vineyard Coteau Rougemont. The "Bulles Rosé Framboise" is a sparkling cider produced by the marriage of apple and raspberry. The aromas of these two fruits combine perfectly to offer you a trendy aperitif! The attack is fresh with fine, balanced bubbles and it offers a nice roundness in the final.

Over the months, the parties present several Québec artists from different disciplines in an urban, trendy and unpretentious environment.

### About JusteRobe

From the first time that Valérie and Stéfanie met at their children's soccer match, they knew that they had each met their kindred spirit. Valérie and Stéfanie are both entrepreneurial women on the go; their busy days are filled with their work, their families and friends. Of course, it did not take them very long to discover their shared interest in love of dresses! JusteRobe was born of the need for the perfect dress for work and play; but the lack of the time to spend hours shopping for it.

Your JusteRobe dress is more than simply your favourite dress in your closet. Valérie and Stéfanie know that your JusteRobe dress is about you: the active, confident, passionate woman that you are.
